About me

Highly motivated and passionate about web development. I have just started, but I have already achieved many successes and I want to continue developing in this sphere and learn new technologies. I can explore a new area of knowledge in a short time. I love taking part in original activities, use creative thinking, participate in volunteer and social events.

Education

- **Web application development with JavaScript**

From June 2022 to September 2022 IT-Academy Minsk, Offline

[Certificate](#)

Memory Game

You are given a set of cards with images, which are shuffled every new game and displayed on the reverse side, when you click on the image, it turns over and shows the image. If you find all the pairs, it's your victory.

Technologies: Javascript, MVC, Module, Class, HTML, CSS, Git, Figma

Show project: <https://github.com/korytsa/MemoryGame>
